

LISTENING BLACKOUT

Goal: to listen and learn from some amazing pianists from around the world.

1. Pick several competitors that you like – read their bios and check out what repertoire they will be performing to find your favorites.
2. Find the website and free streaming options. Most pieces are recorded so you can play any piece at your convenience.
3. Can you cross off all the squares? As you listen, write which piece you are listening to on the line below the composer's name. Make notes about the music using the studio Guide for Music Listening to discuss with your teacher later.
